Summary

A motivated and eager Computer Software Engineering graduate with strong proficiency in core programming and software development. Skilled in languages such as C++, JavaScript, and technologies such as Node.js and Microsoft SQL Server. Although I may be early in my professional journey, I have a passion for learning, problem solving, and applying my knowledge to real-world projects. Committed to growing my skills and contributing effectively in a dynamic tech environment.

Experience

TecXra (Private) Limited

Feb 2023 – May 2023

Web Development Intern

Lahore, Punjab

- Actively participated in training sessions and hands-on mentorship to strengthen web development skills
- Designed and implemented RESTful APIs using Node.js and Express.js to optimize backend functionality
- Developed and integrated search and filtering features, improving application navigation and usability
- Worked on implementing Clerk authentication, ensuring secure user access and authentication processes
- Engineered UploadThing, simplifying and streamlining file management for users
- Integrated webhooks to enable real-time updates, enhancing application responsiveness
- Crafted responsive UI/UX designs, ensuring seamless compatibility across a range of devices

Technical Skills

Programming: OOP, DSA, Core Programming

Languages: C++, C#, JavaScript, Node.js, APIs

Database: MS SQL Server

Tools: VS Code, Postman, VS IDE

Software Development: UML, SDLC, Requirement engineering, Software Architecture

Interest in Dynamics 365 : Interested in exploring and developing solutions in the Microsoft Dynamics 365 environment, particularly in Finance and Operations

Soft Skills: Problem Solving, Attention to Detail, Adaptability, Time Management, Teamwork, Communication

Achievements

Certifications

- Modern JavaScript ES6 - Coursera, Completed in April 2024, strengthening my understanding of core JavaScript concepts and advanced techniques.
- Web Hooks - LinkedIn, Completed in June 2023, gaining practical knowledge of real-time communication and integration techniques, which I applied in projects.
- Intro to Web Development - Udemy, Completed in August 2022, laying a solid foundation in web development and best practices, which I have actively implemented in my projects.

Education

COMSATS University Islamabad, Lahore

2021-2025

Bachelor of Science in Computer Software Engineering

Lahore, Punjab

- **Relevant Coursework:** Data Structures and Algorithms (C++), Requirements Analysis and System Architecture, WEB Technologies (MERN), Discrete Structures, Software Project Management, Software Testing
